

ALTO SAXOPHONE

SUPREME

Pleasure and ease of play

Henri SELMER Paris redefines the modern identity of the alto saxophone with the Supreme.

The creation of the Supreme embodies the culmination of one century of expertise, combined with a perfectly mastered manufacturing process that lives up to the ambitions of the SELMER company.

The Supreme alto is characterized by a perfectly balanced tuning, infinite sound colors, and a great ease of response. Its roundness and projection capacity make it an instrument that is both traditional and resolutely modern.

The refinement and care taken in its manufacture, as well as its entirely corrected ergonomics, reveal an enjoyment and ease of play that has never been seen before.
