

E \flat CLARINET

CONTRALTO

THE reference

The Henri SELMER contralto clarinet is unique, embodying the harmonious marriage of tradition and modernity. Henri SELMER Paris stands out as the only manufacturer in the world to design the professional contralto clarinet by skilfully combining wood and metal. This ingenious fusion offers musicians an exceptional sound, combining the characteristic warmth of grenadilla wood with metallic brilliance, for an incomparable musical experience.

Each Henri SELMER Paris contralto clarinet is a musical work of art crafted with unrivalled precision. The top-quality grenadilla wood body is carefully selected for maximum resonance, while the silver plated nickel keys offer outstanding durability and mechanical precision.
