

SOPRANO SAXOPHONE

SUPER ACTION 80 SERIE II

Versatility and ease

The B♭ Super Action 80 Serie II soprano is a perfect continuation of the 'historical' soprano: light, flexible, with a very round sound, while offering improved playability.

A beautifully toned instrument, rich in high overtones with an excellent power of projection. Its design (one-piece tube) guarantees a perfect precision of response, as well as a great reliability of play.
