

TENOR SAXOPHONE

REFERENCE 36

A warm and open sound

The Reference model is available in two versions for tenor (36 and 54).

The Reference 36 has a rich, open tone, in the spirit of the Balanced Action manufactured from 1936.

The opening diameters of the neck and the bore at the bell/bow junction are larger. It is a tenor with a more generous volume, which allows a great projection.

Slightly less easy to tame than the Reference 54, it offers a constant possibility of development and renewal. It has the same ergonomic comfort as the Reference 54, suitable for all hands.
