

TENOR SAXOPHONE

REFERENCE 54

A centered tone and a great richness of timbre

The Reference 54, more centered than the Reference 36, takes the design of the famous Mark VI, produced from 1954.

A great flexibility, an almost infinite variety of timbres, a very centered and at the same time very malleable sound. A saxophone whose main quality is to adapt to all profiles of saxophonists, whatever their style or level.

The Reference model goes as far as reproducing the design of some of the keys of the famous Mark VI model, which offers ergonomics made for the largest number of musicians.
